

Finally, an easy way for creative professionals to upload, manage, share and stream large media files quickly and affordably...

Introducing

*An innovative new web-based content delivery network*

Now you can deliver files as large as 100 Megabyte with unlimited bandwidth and proven reliability. Works on Mac or PC without any hardware and is 100% satisfaction guaranteed. EIO PRO gives content creators a simple way to upload, manage and distribute their media worldwide.

Cost effective enough to handle any small project, yet flexible and powerful enough to handle even the largest scale streaming project with over 16 terabits worldwide.

**Organize, Distribute, Collaborate, Podcast & Stream all of your media with EIO PRO for just \$199/mo.**

The screenshot shows the EIO PRO web interface. At the top, there are navigation tabs: MY CLIPS (green), PODCAST (blue), REPORTS (blue), PREFERENCES (blue), and SETUP (blue). Below the tabs, there's a header area with 'ACCOUNT: e3000', 'NEW CLIP', and 'LOGOUT'. The main content area features the EIO .net logo, a 'NEW CLIP' button, and a 'CATEGORY VIEW' dropdown menu set to 'EAR'. A table lists clips with columns for Clip ID#, Title, Play Link, Size, Info, Media, File Name, Cat, and DatePub. The table contains four rows of clip data.

Clip ID#	Title	Play Link	Size	Info	Media	File Name	Cat	DatePub MM/DD/YY
3009	Panasonic AG-HVX200 brochure		2M			B_AG-HVX200.pdf	EAR	03/05/2008
2756	Justin Timberlake Sample Demo - Jonny Vegas		35M			Timberlake-Sampler-Jonny...	EAR	12/07/2007
